Comments: Native Wildlife, and the fragile, High Elevation Alpine Basins, of the High Unitas Wilderness, must be protected. Ranchers, need to be prohibited, from letting their Sheep, and other livestock, graze, there. They're destroying the landscape, that Bighorn, and other Native Wildlife, depend on, to survive. Rancher's need to keep their livestock, on their own property, in order to, stop endangering, and displacing, Native Wildlife. PLEASE PROHIBIT THIS, IMMEDIATELY!!! Thank you, for your consideration.
