Title:

Comments: The High Uintas Wilderness should be dedicated to its native wildlife.

Killing native predators to protect sheep or cows should be prohibited if domestic livestock grazing is allowed to continue.

Wilderness means "wild". In other words, leave Nature alone!

The SDEIS fails to disclose how many native predators-such as black bears, mountain lions, or coyotes-are killed in the High Uintas Wilderness to protect domestic sheep.

The SDEIS also fails to disclose the effects continued sheep grazing has on the potential for recovering native wildlife such as wolves and grizzly bears.

The no grazing option as it is best for the wildlife, watersheds, recreation, and the Wilderness.
