Comments: The Wilderness Act of 1964 defines wilderness as follows: "... lands designated for preservation and protection in their natural condition..." "...an area where the earth and its community of life are untrammelled by man..."

What part of that definition do you not understand? How much of our wild lands are you willing to sacrifice to financial greed?

Sheep are notoriously destructive grazers. They will alter their grazing allotment into an unrecognizable wasteland.

The only reason sheepherders want this wilderness is because centuries of grazing other lands have rendered them unusable.
