Comments: LIVESTOCK GRAZING IN THE HIGH UINTAS JUST DEFIES LOGIC!

THE FOREST SERVICE KNOWS THAT DOMESTIC SHEEP SPREAD RESPIRATORY DISEASE TO WILD BIGHORNS AND IS ALWAYS 100% FATAL.

THE FOREST SERVICE KNOWS THAT WILDLIFE SERVICES KILLS HUNDREDS OF THOUSANDS OF NATIVE ANIMALS EVERY YEAR AT THE BEHEST OF THE LIVESTOCK INDUSTRY, AND TAXPAYERS PAY FOR THIS SLAUGHTER.

THE FOREST SERVICE KNOWS THAT LIVESTOCK PRODUCERS ONLY PAY \$1.35 PER AUM FOR 5 SHEEP OR 1 COW AND CALF ON GRAZING ALLOTMENTS. ALSO, THAT THIS GRAZING PROGRAMS COST TAXPAYERS OVER \$100,000,00.00 EVERY YEAR.

HOW CAN THE FOREST SERVICE EVEN CONSIDER OPENING A GRAZING ALLOTMENT IN THE HIGH UINTAS KNOWING THE EXORBITANT COST TO TAXPAYERS, THE SLAUGHTER OF THOUSANDS OF WILDLIFE, AND THAT DOMESTIC SHEEP GRAZING IS A DEATH SENTENCE FOR WILD BIGHORN SHEEP?

IT DEFIES LOGIC!
