Last name: Potter

Organization:

Title:

Comments: Native wildlife is important and should be given priority.

Grazing by domestic sheep and cows compromises the High Uintas watersheds, fouls the lakes and streams, and severely degrades the experience of visitors seeking a Wilderness experience.

Killing native predators to protect sheep or cows should be prohibited if domestic livestock grazing is allowed to continue.

Best option of all: support the no grazing option as it is best for the wildlife, watersheds, recreation, and the Wilderness.
