Comments: I exclusively support the no grazing option as it is best for the wildlife, watersheds, recreation, and the Wilderness. At the very least, the Forest Service should close any sheep grazing allotment if the permit is waived back to the Forest Service.?

As a taxpayer, I expect that this wilderness will be kept in its wild state for the preservation of native habitat of the many iconic indigenous species of the region and for the enjoyment and appreciation of all. I do not in any way support or condone its use as a subsidy for private enrichment. End all grazing of private stock now and forever.
