First name: Chad

Last name: Cooley

Organization:

Title:

Comments: It's absolutely disgraceful the way you're "managing" the people's land, particularly when forests are proving to be more important than ever as we try to manage the devastation caused by global warming. If the logging companies need lumber, let them buy land and grow their own trees instead of stealing ours. You should all be ashamed of yourselves. You're poisoning the lives of all your children and generations to come for a quick and easy dollar now. Quit logging the public's land.
