Title:

Comments: To Whom it May Concern,

I am raising a family in Tamworth and love to take them hiking and skiing in the Sandwich Range and Mt Chocorua. My work as director at the Tamworth History Center also benefits from a strong community of supporters living locally and who come for summers here. We rely on tourists for our economy in town, and a logging operation of this size and in locations where we hike and ski and send visitors who come here to do so, would surely be detrimental to our tourist industry as well as our local quality of life. Please reconsider the size, location and scope of your logging plans in our area with this in mind.

Thank you,

Alice Posner.
