First name: Fr William

Last name: Foley

Organization:

Title:

Comments: This is the first I have heard of extensive logging in that part of the National Forest that is close to my home. The Paugus brook crosses our land and meets the Wonalancet Brook at a corner of our property. I want to know the reason for this project that promises to disrupt our lives. I retired here for the peace and quiet from the chaos of Washington, DC. Please do not bring that mess to our neighborhood!
