Last name: Kumm

Organization:

Title:

Comments: Please rethink all of this, especially cuts and burns near Mt Chocorua trails with no buffer zone.

Please listen carefully to the CLA and the people who have worked with this land for years.

Completely personal: I am an old lady and I have had nightmares about this situation my entire life. I understand that forests need to be managed and that things grow back. But probably the recovery won't occur in my lifetime. Please don't make my last years full of sadness.

Do a kind thing and change your plans. Thank you. Betsy Kumm
