Comments: Kootenai National Forest Over the Snow Motorized Use Travel Plan#64358

1) Where is the current Travel Plan Map and why is that not an option?
2) Any documented conflict between the snowmobiles and Grizzlies, Lynx or Wolverine?
3) All maps at the open house were a joke, along with most of the offered information?
4) Why are some areas that are open to ride blocked by closed roads?
5) Was the Galton collaborative a waste of time? No mention of the time spent trying to come up with something everyone could live with.
6) Grizzlies are thriving beyond expectations.
7) Not enough time to understand that USFS Logic.
8) The maps were a JOKE!
