First name: Donna

Last name: Howland-Towne

Organization:

Title:

Comments: Please reconsider your plan, we hike in this area all the time and enjoy the natural beauty that will be destroyed by logging. We are also very concerned about erosion, storm water runoff and destruction of hiking trails this project will cause. The beauty of the area has more value than the lumber will. We are very concerned about plants, tress and wildlife that will be destroyed. Again, please reconsider this destructive plan.
