Comments: I am writing in opposition to the Sandwich Vegetation Project 57392. I oppose the plan to clear cut and burn in the Sandwich Range. I appreciate much of the work of the forest service, but this plan is too aggressive. The value of this area to those who hike or simply view this area far exceeds the value of the proposed timber harvest. I believe this plan should be reconsidered. Management is important, but this plan is out of scale.

Thank you for your consideration.
