Title:

Comments: I am a Wonalancet year round resident. I live in this beautiful village because of the quietness, the woods to go hiking and skiing in and the calmness of my surroundings. I cannot even imagine OUR woods being torn apart for the sole purpose of timber sales. The noise and negative impact of the logging trucks in our tiny village is going to disrupt our lives in so many ways. Have any of you spent time in Wonalancet? If you had, you would understand this magical place and would understand why the residents are so deeply concerned and upset.

Please do not destroy our tiny village and reconsider.
