Comments: All roads open to wheeled vehicles on the MVUM should be open to snowmobiles. Almost all of the proposed backcountry open riding areas are completely inaccessible. In the three rivers area (Spread, Pete and Hellroaring), all of the historical backcountry riding areas are proposed closed. This will greatly reduce snowmobiling in the Yaak which will negatively affect the fragile Yaak economy.

In all this is a big reduction in snowmobiling areas. These reductions are unnecessary and will not benefit wildlife. These closures will also have a huge negative economic impact on the economy of Lincoln County.
