First name: Rachel

Last name: Hawks

Organization:

Title:

Comments: Let's think about the long term here, we really can't afford to cut more mature forest anywhere in this country. I live in Oregon where we have clear cut the majority of our mature forest for short term gain, and the East coast had most of its forest cut and cleared back in the colonial days. Please leave this forest be and invest in the future of how people can come recreate and enjoy this land.
