Comments: I am opposed to the Sandwich logging project. As a recreational hiker, as well as a professional herbalist and conservationist, I am opposed to this project that would damage the scenic value of this area as well as the endangered and rare species present here. I travelled all the way from Kentucky to hike the summit of Mt. Cocorua last year. The White Mountains are a national treasure that are certainly worth more standing. Please meet with the community and find other alternatives that will better protect these forests and the trees, that hold incredible amounts of carbon that should not be released by logging them.
