Title:

Comments: I am an infrequent skier and frequent mountain biker.

I have come to Big Bear 3 times in 2023 with my son to ride trails at Snow Summit Mountain Bike Park for single day visits, and the improvements proposed in this project would increase the likelihood that I would stay for more days in order to ride the additional trails provided by this project.

As the number of mountain bike trails proposed would more than double the number of trails available, this would make the combined Big Bear Mountain/Snow Summit Bike Park a destination for riders from out of state and the country. These riders will increase the opportunities for businesses in the hospitality industry to serve their needs over multiple days.

Please consider my message to be in strong support of the project.
