Title:

Comments: 100% in support of expanding the terrain, ever since the ikon pass the slopes are too crowded, and it's dangerous, expansion of terrain connecting both resorts would make a lot of fun new runs, and relieve some of the parking issues, as well as crowd issues at the resorts, this should have happened years ago when mammoth first purchased bear and summit. Plus, if they move snowmaking equipment in the area it's just another buffer zone protecting the town and my home, thankfully the resort workers were there to protect the community with the firefighters during the radford fire. Expanding terrain is 100% the right thing to do for the community.
