Comments: I think that connecting Bear Mountain and Snow Summit is a fantastic idea! It would allow us to enjoy so much more of this beautiful mountain, help disperse traffic in the more crowded areas and trails, and allow visitors to more easily experience Bear Mountain and Snow Summit in the same day, rather than needing to shuttle between the two. My only concern would be if there are plans to build another parking lot since parking can already be chaotic during ski season. But I hope the plan is approved and I am very excited to see how it unfolds!
