Title:

Comments: It is with great disappointment that I respond about the closure of the trail into Fish Lake. We have riding the trail each year to enjoy our time at Fish Lake. We have also done our part into the maintenance of the trail and that is with much pleasure. The trail into Fish Lake is only allowed on the trail and that is the route all riders take. We have not seen anybody not use the trail. We have accessed Fish Lake back when my mom was alive and want to continue to access Fish Lake. It means the world to us to use this trail by ATV/UTV to enjoy this beauty of Idaho. Please release the hold on this trail and allow us to travel in and out of the lake. I am sure this is the thoughts of many of the trail riders that access Fish Lake.

Thank you for your time and understanding

Lance & Judy Wilson
