First name: Sam

Last name: Bracken

Organization:

Title:

Comments: I want to express my support for the Dry Riverside Project that is planned for the Flathead NF. This is an area that I recreate in and I fully support the thinning, fuels reduction, planting and habitat enhancement work outlined in the EA. I think that it is important to have a working forest that provides for recreation opportunities and big game habitat, as well as jobs and forest products for the community. Thank you for the good work.
