Comments: Your proposal for OSV use in the Inyo National Forest around Mammoth Lakes needs to be reconsidered. There are hundreds of miles of snowmachine access around Mammoth Lakes and June Lakes including Shady Rest, Inyo Craters, the Smokey Bear Flats, Bald Mountain areas, the airport shutes etc. The Sherwins area outside of Old Mammoth is already busy enough, that increasing snow machine access is not safe, nor necessary. I already worry about the noise impact, avalanche safety, and parking in the busy zone. I would recommend trying to minimize the impact on this already impacted zone and focus instead on parking mitigation, noise reduction and safety, not complicating it with increased snow machine access which isn't necessary nor advisable.

Respectfully,

Rich Koehler
