Comments: I am an enrolled Nez Perce we have Treaty rights in the Clearwater and Nez Perce National Forests I have been appalled by the lack of restrictions in the forest where people use their ATV's or other vehicles and simply bypass gates, or signs saying to keep out. Hence I would like to see the Forest Services to keep the existing elk habitat standards of the forest plan and close all of the 2011 travel plan trails to motorized use. I have had people drive right through a closed area without a care to me the Elk need to be protected from the noise and destruction of these ATV and other vehicles.
