First name: Travis

Last name: DeFreest

Organization:

Title:

Comments: I oppose the expansion. Everything is growing from the cities to the mountains. The amount of people, the amount of cars, the amount of noise, etc etc. Can we please have less people in the woods for once. Stop making it easier for more and more and more. There's plenty of skiing access elsewhere. Keep Monarch small and independent, keep it less congested. Keep simple! Please keep more people out of the backcountry/side country/ slack country. There's not even enough natural snow to support what's already at monarch. Keep it wild!
