Comments: In general proposed project looks good and is much needed. Additional ski runs, lifts, beginner areas, and mountain bike trails will improve the visitor experience by reducing over crowding on existing.

The USFS should require that the resorts not limit beginner area and lift access to only those being charged for lessons. Normal ticket or pass should be allowed on any runs/lifts on Forest land.

The new runs connect the two resorts should be wider and design to avoid intersections that can lead to collisions.

The proposed mountain coaster is out of place in a national forest and should be removed from project plans.

West Ridge, Ego Trip, ZZYZX parks should be removed from Snow Summit and returned to traditional runs.

Slow zones should be strictly enforced by resort staff on Snow Summit green runs off chair 9 and beginner Summit Run. Violators should lose pass. There should be runs that families can safely ski with young children.
