Comments: On behalf of myself and my family of 4, I wish to express my support for the Monarch Ski Area expansion. My family and I have been skiing Monarch for 3 generations now. Monarch is known as a family-friendly ski area with plenty of easy terrain for learning. Adding more terrain will provide more options for more experienced skiers to enjoy while the newer and younger skiers keep to the existing terrain. We appreciate your work in managing our forests and helping us benefit from our national natural resources.
