Comments: To help support the expansion efforts and plans at Monarch Mountain I would like to provide my backing of this well thought out and well planned expansion. Monarch provides such a wonderful area for Front Range skiers and out-of-state skiers to experience Colorado skiing in a friendly, safe and uncrowded environment. Monarch Mountains management has slowly and carefully planned every step of the growth of this resort and has provided a very clear vision of what Monarch is and what it will never become. I think this plan to expand terrain in a responsible manner will enhance the Monarch experience and preserve the feel of the resort. My grandkids love skiing at Monarch and we love the safe, fun and friendly culture that Monarch encourages. Please review and approve the current expansion plans.
