Comments: My family is proud of Monarch Mountain and we support the ski area expansion project. For years we have seen Monarch make improvements to the area, not only the ski restore but now it's Crest tram and "trail hub." Not only have they provided numerous jobs and brought tourism to the local and state economy, their capital improvements are backed what seems like genuine care for the forest and community. My family and friends, including myself snowboard & ski monarch every season, I have ski'd monarch butterflies exclusively for 6 years. The hospitality there is unrivaled to any ski resort I've been in the United States, and the amenities have improved year after year. I trust the folks operating Monarch with my entire ski experience, and I trust they'll expand responsibly and efficiently.
