Title:

Comments: I very much enjoy Monarch as it is now, but this opening of a new area with added runs would, without a doubt, make it that much better.

I ski all over what is available now, but this expansion would definitely be an improvement. When I come to Salida to ski, I come for a week or more. It would be nice to see this expansion take place to add to the choices I now have. I believe I am not the only skier who feels this way. Call it what you will, but more, when it comes to ski resort size, really is better.
