Comments: I support the proposed expansion at Monarch Mountain resort. After almost six seasons of skiing Colorado resorts Monarch has emerged as my favorite. Monarch does an excellent job of managing all aspects of the skier experience from the cleanliness of bathrooms to the bar and food selections, to the terrain itself. The way Monarch presents itself to its guests convinces me that it will use the utmost care in the development of additional skiable terrain. Therefore please allow the expansion of Monarch Mountain to include No Name Basin. Thank you.
