First name: Robert

Last name: Cool

Organization:

Title:

Comments: Monarch is the most progressive ski area despite being, thankfully, smaller. The attention management and employees give to their skiers is first class.

Monarch has continued to refine and grow all aspects of skier enjoyment regardless of tough economic times.

Please allow Monarch to grow and prosper. They have only helped the surrounding communities to improve and grow in a positive manner.

The Tenth Mountain alumni taught me the industry from 1663 -1972. And I apply that knowledge to the above comments. This is my seventy second year of loving this sport.

Thank the National Forest Service for their continuing support.

Respectfully submitted,

Rob Cool
