Comments: Motorized vehicles including any kind of E-bike should NOT be allowed on the National Forest. Please do NOT allow any e-bikes on the trails in the National Forest as they damage the trails and many e-bike riders sadly, have already shown they do not follow rules. The added speed of e-bikes make it unsafe for other trail users. Again, please do not allow ANY level of e-bike or any other motorized vehicle on our trails in the National Forest!!!! Thank you.
