First name: SHANE
Last name: SHIMA
Organization: MONTANA POWER PRODUCTS
Title: president
Comments: There are enough restrictions on our public land. If we cannot use our public land then why should it be held in the public trust? If the federal government cannot manage our federal land properly without shutting it down, turn it over to the state of Montana. Our livelihood in this state depends on our ability to use these lands. Grizzly bears are not at all endangered and will be soon managed by FWP of MT. Stop this government overreach and allow us more access and use to our public lands, not less. Thank You. John Shane Shima
