First name: Anthony

Last name: McDermott

Organization: IDFG/N. ID winter working group

Title:

Comments: Totally opposed to restrict public use of federal lands. Grizzly's have expanded well past recovery goal's despite flawed DPS locations in N Idaho that will never be delisted with out Congressional help. USFS pays more attention to extreme environmental interests than they do to to public who have to coexist with theses top predators. Turn GB management over to the states ASAP. Thanks.
