Comments: I don't believe e-bikes of any kind should be allowed on the forest service trails. How are you going to enforce this? This opens up people with class 2 or 3 e-bikes to flout the rules. I personally don't know the difference when I see people on e-bikes. So I wouldn't be able to report it. Further, you're going to see a lot more wrecks because of the weight and skill it takes to ride on mountain bike trails with heavier bikes. Especially with younger users.
