First name: Travis

Last name: Riddell

Organization:

Title:

Comments: I am in favor of allowing electric bicycles on Teton Pass area trails. Although I am a dedicated mountain biker and would personally consider it "cheating" to use an e-bike on a ride myself, allowing e-bikes on trails causes no harm, in no way degrades the experience of others, and improves access for those who are less physically able.

If 20 years from now riding an e-bike allows me to continue access these trails, I will consider myself fortunate.
