Title:

Comments: Please follow recommendations of Winter Wildlands Alliance

Separate motorized and nonmotorized recreational Shady Rest area:

1. snowmobile trailhead at CA 203/Sawmill Cutoff Road with designated OSV route around W side of Shady Rest Park connecting to groomed snowmobile trails
2. closure of existing groomed Nordic loops and Shady Rest Park itself to motorized travel.

Do not designate OSV use the Sherwins area from Mill City + Mammoth Rock to Bardini and Tele Bowls. Create a designative OSV at current propane tanks and borrow pit that follows Sherwin Creek Rd to the motocross area and beyond and avoids the walking and sledding area and the South-facing slopes across from Tele Bowls

Thank You
