Comments: Please expand e-bike use on Jackson area trails. The selected trails of this project should be included for e-bike use.

I will be 65 in 2 months and losing muscle and strength as an aging elder. E-bikes are essential for us aging but active Jackson residents as well as those who have physical limitations who would like to continue to stay active by biking. Our local trails are brutal for hikers with knee problems because of the down hill descent. Biking is a documented benefit for improving knee mobility.

I would also propose entertaining including the following trails: Lower Ferrins, Ferrins, West Game, Game, Skyline, Cache Creek Trail, Snow King Mountain Resort (similar to Jackson Hole Mountain Resort)

Finally, I request the addition of Individuals over the age of 65 and or persons with mobility disabilities qualify for use of Class I e-bikes on single track under the terms of the Forest Service. (Park City allows this permission of use. Please see Park City Code 10-1-4.5. B-1-b "This prohibition shall not apply to Class I electric assisted bicycles operated by persons age 65 or older." 10-1-4.5 Non-Motorized Trail Use B.1.b

https://parkcity.municipalcodeonline.com/book?type=ordinances#name=10-1-4.5_Non-Motorized_Trail_Use

Thank you for your consideration in approving these requests. The proposal for allowing e-bikes on single track trails is visionary.
