Comments: I support the use of class 1 e-bikes on the proposed trails on Teton Pass and in other regions. I ride both e-bikes and non e-bikes and enjoy both. Having the opportunity to ride either my e-bike or my non e-bike on Teton Pass would be amazing! I love those trails and enjoy the jumps and downhill sections. I do not believe allowing class 1 e-bikes on these trails would diminish the experience for others, and genuinely feel the only conflict between e-bikers and non e-bikers is caused from the ban of e-bikes on the trails. I do not ride my e-bike any differently than my non e-bike- I am just as cautious, go the same speeds (especially downhill), and am equally as considerate of other trail riders. I love riding my e-bike and non e-bike on Teton Pass and would love to be able to ride my e-bike on those trails. I fully support the use of e-bikes on these trails. I do not feel there is a need to have a sticker requirement or additional education for e-bike riders- if education is required I feel like that requirement should apply to both e-bikers and non e-bikers.
