Comments: E-Bike Use Designation on Select Jackson Area Trails #64890

the reasons i object to e- bike usage, on teton pass, munger mountain, and horsetail are:

1. wildlife disturbance. incrementally and with huge leaps of desire, we keep wanting more people to recreate more. but we share this valley with many species of wildlife. they have vital needs: to eat with out constant vigilance, to have less noise for their communication, to be able to move in their habitat. as it is with current usage, the wildlife are already compromised.
2. the overall number of bikers would increase, making these areas less appealing to multiple users now using these trails--hikers, horse riders. more is not better!
3. when will this all end? e-snowboards??? please, no. just because users want more, is no reason at all.
4. those who are concerned they will age-out with out an electric assist is also no reason at all. walk your bike if too much, or just walk. and please don't ask for heli assist for backcountry skiing!
