Comments: As a resident of Wilson I use the Old Pass road and History trail several times a week almost year round. I think the use of E bikes is inappropriate on the Old Pass road, I am afraid that the combination of people, dogs, and E bikes speeding down hill is a recipe for disaster. I have nothing against E bikes, I own one that I use for commuting into town and enjoying on the pathways . However E bikes have already become an issue on the pathways , as a pedestrian I feel a little unsafe and ill at ease when walking from the village road to Emily's pond . Unfortunately many E bikers do not use their bells or alert pedestrians when they are passing. I shudder at the thought of E bikers zooming down hill on the Old Pass and the potential for serious accidents seem only too likely . I don't have an issue with E bike use on Munger, the Arrow trails , or Phillips pass as long as bikers are respectful of hikers, dogs and horses . Thank you for considering my comments.
