Title:

Comments: No one likes anyone filming in Petersburg because the Bush people left a bad taste in everyone's mouth. However, From my understanding moose season will already be over by the time they invade. I don't know how many actually NEED to subsistence hunt deer in little Duncan specifically. People in Beecher pass are worried about traffic but it won't be any more than a normal crab season as most of the people involved are staying in little Duncan as part of the show. And they are hiring locals for all kinds of things. Accomodation, cars, boats, food, groceries. During a season that is naturally a bit of a slump as migrant workers ship off and locals go long lining, crabbing, or on vacation.

Thank you,

Brannon Finney
