Comments: Good morning,

I am reaching out in regards to the TV series "Outlast" filming in the Duncan Canal area as I've learned the crew is applying for Forest Service permits October through mid-November. This time frame is not only during the rut, but also an important time where many Petersburg residents rely on subsistence hunting. I feel that this large crew of 40-50 people would disrupt a crucial time for those that rely on subsistence methods, as well as disrupt the residents in the Beecher's Pass area. There are many other locations that would better suit their needs.

Thank you,

Holli Davis
