Comments: Hello Bret

Im writing this note to you in support of my renters who are part of the film crew who are seeking a permit from the Forest Service to film a show in Little Duncan Bay.

My understanding is the Forest Service permit is the last one needed to proceed with the shoot.

I understand the filming is hoping to Start after the 8th of October 2023.

In talking with the renters, they anticipate over 45 support people to ensure the safety/management of the 16 to 20 contestants.

I have not seen the proposal that I understand was sent to land owners of the area.

From our conversations, I believe they will leave not only a minimal enviornmental impact, but our economy will greatly benefit from their local emplyment and purchases in the community.

Thanks Bret and I urge you to help expedite the required permit before Friday the 29th of September 2023.

Thanks,

Dianne Christensen
