Title:

Comments: Hi Bret:

My name is Dan. I'm writing to support the BBC production Outlast in the permit request to film in Little Duncan Bay on Kupreanof Island.

The impact of this production should be limited to just the Little Duncan Bay area, which by all accounts, is not heavily fished or hunted.

And the presence of a 50-70 person crew will have a large and positive economic impact on Petersburg, with all the crew's anticipated hiring of local vendors and spending at local businesses.

I urge the USDA to grant the permit as applied for.

Thank you for your time.

Dan Bree
