Comments: I feel an ebike trail on the east side of the highway would be fine. But on the westside it is alot more difficult and out there for some folks, the fact that you have to earn it makes it pretty special and adds to the solitude you feel out there on Phillips and Phillips ridge, e bikes will add alot of people who may not be ready for what awaits them out there and will just cause unnecessary incidents with possible rescue and people not knowing where they are going etc. Keep the west side as is. Im not against ebikes I just think some places we should just leave as they are. east of the road access with an e bike would be great for people shuttling the jump trails etc. And will probably even eliminate some traffic and pollution from cars.
