First name: Donna

Last name: Donnelly

Organization:

Title:

Comments: The expansion is a win win for all parties involved:

- 1) Increased revenue for Monarch, US Forestry, local businesses, stat & local governments.
- 2) Safety will improve, since the new area will spread the skier volume more across the mountain.
- 3) This expansion will significantly improve the enjoyment of outdoor sports/activities for local & regional citizens, and it only requires such a small slice of the managed federal lands.
