Comments: Please follow the recommendations presented by the Winter Wildlands Alliance. There are so many details I don't feel I need to repeat them here. Instead, I simply offer the plea to preserve more acreage to noise and exhaust free recreation. Unfortunately, there is a bit of self-fulfilling prophecy when opening areas to motorized recreation. The areas become noisy, unpleasant and not enjoyable. Thus, self-powered recreation in those areas drops and the motorized folks claim it isn't being used. It is clear that MOST people go to the mountains for the peaceful beauty, not to be part of another freeway. Please, limit the use of motorized vehicles and expand the areas for self-powered recreation.

Thank You,

-Dave
