Comments: Hi there,

Most of us enjoy the outdoors as it provides a respite from the hustle and bustle of city life. The outdoors provide a quiet and peaceful place to rejuvenate ourselves. Motorized equipment has a way of shattering the calm for us humans as well as wildlife with noise pollution and gasoline fumes over large areas. It is also not safe for non-motorized users to be in the path of fast moving snow mobiles (similar to cars vs pedestrians situation). It is my plea that the Forest Service will limit the area covered by snow mobiles to keep more areas pristine, increase non-motorized areas and keep the two separate for everyone's safety.

Thank you,

Jamsheed Wania
